B O S T O N, Dabler 4. Captain Hood arrived in London, from this Place, in 30 Days; by him they had the Medlages that paffed

in the General Court, at their Session, in June last.
They had also Accounts of the Affair of breaking Mr. Hulton's Windows, at Brookline; as also of the Carting of Minasters, which causes great Uneasiness

among our Friends at home.

In the Eng. th Papers are a Number of Letters from Bofton, containing the Debates at Faneuil-Hall, relative to Non-importation, Reports of Committees, &c. with many bitter and cruel Reflections on the Inhabitants of the Town, who have suffered most of any Colony by the Agreement: The Adherence to the Agreement in June last, and the Philadelphians and New Yorkers joining therein, gave a most sensible A-larm to the People in England, and made even the Enemies of America do Justice to the public Virtue and Patriotifin of its Inbabitasts, which they allow is unparrilled in modern Times.—But how will they be affected when the Orders arrive from New-York for Goods, which doubtles will be in a Week after Capt.

White failed: Certainly they will be furprifed! The Honourable House of Representatives, on Thurs day last, appointed a Committee of Nine Members, of which the Speaker was Chairman, to take under Confideration his Honour's Speech, delivered that Morning; who the next Day reported, that it was for the Interest of the Province Aill to adhere to their former R. folution not to proceed to the publick Business. It was then moved and ordered, that the Consideration of the Report be postponed till Wednesday next, and that in the mean Time Expresses be sent to call in the absent Members .- On Saturday the House voted to obferve Wednesday next, as a Day of Prayer, to seek the Direction and Favour of Almighty God, and sent the Vote to the Council Board, where it was unanimoutly

"We continue on good Terms with the Emperor of Morocco, who has of late given up feveral Points which the new Conful infined on, to that our Difference with that Prince seems now to be entirely forgot. The Report of the French fitting out a Fleet premature; they have indeed declared War against the Tripolitans, and fent some Ships to cruize off their Ports, to prevent their Cruizers getting out or hurting their Trade; but they feem to be afraid to give the Turks any Ashihance, as it would undoubtedly bring on a general Rupture.—We have no certain News about the Russians in the Morea; some fay they have conquered all that Peninsula, except Napoli de Romania; others, that they have been dispossessed by the Turks; so that it is absolutely necessary to wait a fur-Turks; to that it is abloquery necessary to wait a further Eclair cifement.—We have just received Advice of the Danish Squadron having bombarded Algiers for Three Days, but do not find they have done any Execution of Confequence; the Wind coming on strong eafterly obliged them to retire to Mahon to repair their Damage; when completed, and got tome Refrethment, ther are to return to the Attack; but as the Place is very strong, we fear they will make no Hand of it .-The Emperor of Morocco, after being within a Day's March of Tetuan, with his Army, retired suddenly back to Mequinez, where he now is; and but few can tell what Defign he has in View.

It is said that Wagers have been laid at great Odds, that a certain very respectable Assembly will not proceed to do Bufine's in the Place where they are now held; considering themselves as under Constraint.

Yesterday Commodore Hood arrived here in his Majefty's Ship Romney, from Halifax.

Miss Namah Leech, of Beverly, who was in this Town a few Days fince, excited the Curiofity of Numbers to fee her, as a very remarkable Instance of dwarnish Stature, being but 25 Inches in Height. She is 52 Years

of Age. NEW-HAVEN, Odiber 5. We hear, that on or about the 23d ult. a great Number of the Inhabitants of the Province of Pennfylgania, beset the Fort at Wyoming, on the Susquehannah, in the Night, while the People in the Fort were asleep, cut and wounded many of them, and took Possession of the Garrison; but that no Lives were lost. These are all the Particulars we have heard.

NEWPORT, Odober 8. We are affured, that one Gentleman only, at Barnstable, about 50 Miles from Boston, who has, not long fince, set up the Woollen Manufacture, receives, from pinners he employs, 500 Skeins of Yarn, one Day another, and that he has lately purchased 6,000lb. of Wool for his Winter's Stock. of Wool for his Winter's Stock.—By a moderate Calculation, he cannot clear less than 3,000 Dollars per Year by this Manufacture, which is the most profitable of any Business now carried on in America, according to the Stock improved in it; for the full Knowledge and Proof of which, we are obliged to our consummately politic LORDS and MASTERS, (as they could be called) the M——ry of G—t-B—t—n.

radica) the M——ry of G—t-B—t—n.

It is affirmed, by the best Judges, (that is by those who have made the Experiment) that a Piece of Broad Cloth, of equal Goodness with what would cost Three aDollars per Yard in London, may be made in this Colony, and even in this Town, for One Dollar and a Half per Yard, reckoning every Expence.

Hence it is easy to conceive how the Importation of

Woollens might be stopp'd, by a little Industry; for

there is certainly Wool enough raised in this Colony for clothing the Inhabitants, great Part of which has formerly been carried into the Massachusetts and Connecticut Colonies .- But, we are informed, that or late those Colonies have been almost stock'd with Sheep from this Colony; fo that they will want but little of our Wool for the future; on which Account it is thought Numbers of Merchants and Farmers will foon largely into the Wootlen Manufacture, by which the Wool raited in this Colony may be made to produce a clear Profit of Five or Six Times the first Cost of the Wool, after paying every Charge that can happen; which can be demonitrated as clearly as any Proposition in Euclid,

PHILADELPHIA, Oficber 3.

TO THE PUBLICK.

THE Advertisement, calling the Freeholders and Inhabitants of this City and County together, at the State-House, the 27th of September, begins with decaring, " That they were juitly ararmed at the Refo-" lutions entered into by a Number of the Dry Goods Importers, on Thursday the acts of the same Month," which reflects Dullonour on this City and Province.

Permit me to enquire what just Cause they could have to be alarmed?

The Gentlemen who had heretofore bound themseives by an Agreement under their Hands, had a Meeting, after Three Days publick Notice, according to the Tenor of said Agreement, and by a great Majority, determined to alter it. This was not done by the Dry Goods Importers only, as is infinuated, but by the Subscribers in general to said Agreement, great Numbers of whom were not Dry Goods Importers. Could their Alarm arise from an Apprehension, that the Inhabitants of this City and Province should recover their Trade again, after juffering it for a long Time to be torn from them, by the neighbouring Provinces, and Strangers, who have daily had Goods felling here, both at publick an i private Sale, at exhorbitant Prices? Can it be more agreeable to you to be thus supplied with Necessaries, than through the Hands of yor Friends and Fellow Citizens, who, however mirrepresented by Malevolence, have greatly, though voluntarily, fuffered in afferting their Rights? I think I know y ur Candour too well to hesitate a Moment for an Answer.

What Part of the Resolutions then, is it apprehended, reflects Dishonour? Is it the Agreement to open the Trade with Great-Britain, except the Articles which are, or may hereafter be fubject to a Dity? I would beg Leave to observe, that other Modes of position, from the Colonies, have been tried in vain. This Plan was, from the Beginning, confidered by great Numbers of judicious fentible Men, as the most rational and prudent Step that could be taken to op-pose the Duty Acts. Upon this Basis, a Urion among the Colonies may still be formed, and a steady Opposition to the offensive Act given, which I make no Doubt will bring about a Repeal. Surely this cannot be the Cause of any just Alarm.

Well then, my Friends and Fellow Countrymen, I

now come to the Merchants last Resolve. If this can be justined to your Satisfaction, I hope the Alarm will prove to be without just Foundation.

The Merchants refolved to alter the Agreement they had entered into among themselves, without consulting the other Colonies. Gentlemen, the Merchants had Time and Opportunity to inform their Judgments, and I firmly believe they determined, according to what appeared to them to be right. Who could they properly consult? The Massachusetts Government, and Town of Rolley, they make well informed by and Town of Bolton, they were well informed, had made large Importations, both contrary to the Spirit and Letter of their Agreement; infomuch that we have Reason to believe, they thereby greatly lessened the Weight of the Non-importation Scheme, and were instrumental in preventing the Repeal of the Tea-Ast last Sessions of Parliament. Notwithstanding this, the Letters and News-Papers from that Quarter, strongly recommended to as an inviolable Adherence to our Non-importation Agreement. Did this Duplicity of Conduct merit our Confidence or Complaifance? Even had they flood firm to their Agreement, our Situation and Circumflances might have made it absolutely necessary for us to import, though theirs might not make

cellary for us to imposs, it to for them.

The New-Yorkers had, for fome Time past, given their general Orders for Goods, Duty Articles excepted. What could they then expect from us, or we

The Marylanders, under their partial Agreement, have been importing very large Quantities of those Goods, they pretended they could not do without, in order to supplant us in our Trade, by supplying our City and Province with their Importations; and thus what was done under the Cloak of Patriotism, turned out a lucrative Scheme. Can any Dishonour be reslect-

out a lucrative Scheme. Can any Dilinonous be renected on this City and Province for not confulting them?

In short, Virginia, and all the other Colonies, were differently circumstanced in their Agreements from us, and could not expect us to consult them, as they did not consult us in any of the Steps they took, and had never adopted the Plan we had by Example pointed out to them. Wherefore dear-bought Example pointed out us, it was high Time to assume our Trade again, or it would have been so dispersed into the Hands of Strangers, that it would foon have been out of our Power to have retrieved it.

Thus have I endeavoured, in a plain Manner, to account for the Resolutions of the Merchants at Davenport's, on the 20th of September, and I hope to your Satisfaction. And though some few Men are fond of arrogating to themselves a superior Degree of Discernment and Penetration, and rashly condemning their Neighbours for not being of their Sentiments, I make no Doubt but the Merchants late Resolves, to open their Trade, except Duty Goods, will meet with the Approbation of the greatest Part of the Inhabitants of this City and Province.

The Dry Goods Merchants conceive, that their it dopting the Plan not to import the Articles fiber to a Duty, after their long and fevere Contest, upon a more general Scheine, ought to be firengthened by the Importers of Wine, Meialles, Coffee, &c. who wholly support the American Revenue, with the Board of Support the American the numerous Train of Officers dependent on them.
